Wow window position and size:
0, 0, 0, 0 Reset Select

Relaunch if Wow or WRobot crash: ☒

Minimise WRobot on start: ☐

Tasks:
Add Delete Task name: Task type:

5. then thus it should look

Click on None 1

Task name: enters Route 1.

Task type: select Run

Product: select Gatherer

**Profiles: select the profiles I created: Route 1
Suramar**

FightClass: select your Fightclass

When you finished click in None 2

***You will see that None 1
now changes to Run (Route 1)***

changes if this repeats with every segment and respects to it you under profiles the suitable route chooses

None 1 = route 1 Suramar

None 2 = route 2 Suramar

None 3 = route 3 Suramar

6. if you ready to this should look so

Task name: Route 1

Task type: Run

Run time: 60-70

Product: Gatherer

Profile: Suramar Multi Farm\Route 1 Suramar.xml

FightClass: Demonhunter.xml

Additional WRobot args:

7. Check the General Settings before starting

Relogger 1.2.0 (30509)

General Settings

Checked	Name	Status	Running Time	Comment
<input type="checkbox"/>	Profile name	Stopped		
<input type="checkbox"/>				

Run tasks in loop: ☐

WRobot license key:

BattleNet account:

Account name:

Password:

Character name:

19:41:32 - Relogger 1.2.0 (30509) started.

Normal ☒ ON

Fight ☒ ON

Navigator ☐ OFF

Finish! Click on Start Checked

(Hack must be set at Checked)
