The Argus Questing Guide

(from createdby)

Before you can start your Trip to Argus

you have to make some important settings

1. Requirement for the Start:

Your character is level 110 and has done the following

Completes the start scenario of the Broken Shore
Do the quests until you arrive in Vindikaar
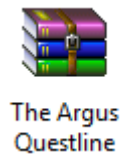

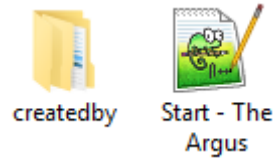

[The Hand of Fate] & [Two If By Sea]

Quest 1:
http://www.wowhead.com/quest=47221/the-hand-of-fate (Alliance)

Quest 2:
http://www.wowhead.com/quest=47222/two-if-by-sea (Alliance)
http://www.wowhead.com/quest=47867/two-if-by-sea (Horde)

2. Install the Quest Folder

After download, unzip the rar. File to your Desktop

The Argus
Questline

Now you should find the following files on your desktop

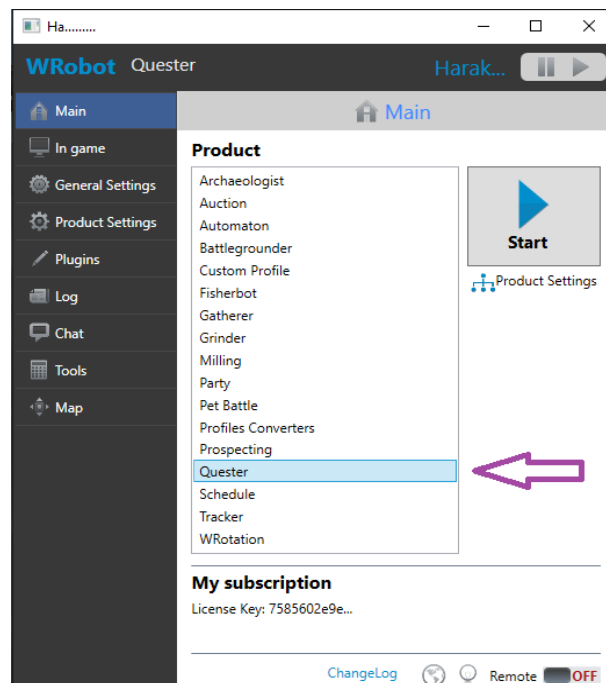

createdby   Start - The
                    Argus

Copy & Paste the Files to your Wrobot Quest Folder

*C:\WRobot\Profiles\Quester*

3. Settings for Wrobot

*Start your Wrobot and click on Quester*

Click Product Settings and select the Profile

Start - The Argus.xml

Click Generell Settings and

take over the settings based on my picture

4. Start Point

If you have Complete the 2 Quests and you arrived the Vindikaar

You can Start the Bot!

Important
since this profile works partly with mouse clicks your Wrobot
MUST run in the background otherwise it comes to problems

5. Troubleshooting

Question: What can I do if my char stops and does not keep going?

Solution: Open your bot window and left click on the option Log, disable all options only debug not. Watch if there is still something there, if no start the bot again.

Question: Why is my bot running into the wall?

Solution: It may happen that a quest is not executed correctly or only partially

(Internet Connection, Lags)
Please cancel the quest and go back to the quest giver and start the profile again.
If the error remains contact me that I can fix the error

Question: My Char has complet the quest but does not return to the quest giver.

Solution: Paus or stop the bot and start the profile again. If the error remains contact me that I can fix the error

If you have other problems than listed here please write me a message with the quest, the error and best with screenshots
